Property Managers and Home-owners,

Our grass cutting service has resumed for this season. As this year is an exceptional time in all of our lives there are a couple of changes in our procedures. Please keep these in mind and pass along the relevant information to whom it may concern.

- We will fulfill the terms of our contract with you. Although you will enjoy the same results, our time frames may be different.
- We will not be leaving paper quotes, estimates, or invoices to reduce the risk of spread. These will be delivered electronically.
- Please do not come out to interact with our staff unless it is absolutely necessary or you have an appointment with someone from our management team.
- When meeting with a team member, instead of a handshake we will be there with a smile and a wave from a safe distance.
- Staff are not permitted to enter a client's residence under any circumstances.
- Please be patient with any extra vehicles. Our staff are traveling separately to stay safe and they may arrive in separate vehicles.
- Garbage collection will only be done with garbage pickers.
- Our staff may linger after the job is done; they are just wiping down the machinery, equipment and vehicles and washing their hands.
- Although our physical office is closed to the public, Barb is answering the phones daily from 9-3. Any questions - please give us a call!

Let's work together to keep everyone happy and healthy.

Brian VanHengstum - Operations Manager

Mark Faber - Client Care
